MONDAY, AUG. 29, 1892.

The Advertiser will probably congratulate itself on being the cause of Mr. Neumann's elevation to the ming in the millinery department Cabinet, as it has often boasted that to its opposition was due that gentleman's election to the Legislature.

Well, the Pacific cable has started this way from the south. A contract has been signed with a French company to lay a cable from New South Wales to New Caledonia. New South Wales and Queensland divide the intention, with the expected cooperation of the other Colonies, to extend the line from New Caledonia to Fiji. From Fiji it is anticipated, on good authority, that the cable will be extended to the Hawaiian Islands, and from here to British Columbia.

Harper's Weekly, in discussing a way across New York, says of the As from church to Makiki we harried; trolley system (that intended in the franchise for electric motors held by the Hawaiian Tramways Co.) that, "though the mechanism is awkward and ungainly, it is by far the cheapest motive power that can be used to propel street cars." Specialty.

used Boschee's German Syrup for some severe and chronic trouble of the Throat and Lungs can hardly appreciate what a truly wonder-

ful medicine it is. The delicious sensations of healing, easing, clearing, strength-gathering and recovering are unknown joys. For German Syrup we do not ask easy cases. Sugar and water may smooth a throat or stop a tickling—for a while, This is as far as the ordinary cough medicine goes. Boschee's German Syrup is a discovery, a great Throat and Lung Specialty. Where for years there have been sensitiveness, pain, coughing, spitting, hemorr-hage, voice failure, weakness, slipping down hill, where doctors and medicine and advice have been swallowed and followed to the gulf of despair, where there is the sickening conviction that all is over and the end is inevitable, there we place German Syrup. It cures. You are a live man yet if you take it.
